## SKILLS

Full stack Web development

Angular

HTML

CSS

Bootstrap

JavaScript

core java

Spring Framework

SpringBoot

Hibernate

RESTful APIs

Selenium testing

MySQL

## LANGUAGES

English

Full Professional Proficiency

Tamil

Native or Bilingual Proficiency

Telugu

Professional Working Proficiency

## INTERESTS

Full Stack development

## EDUCATION

### College

Dr.Mahalingam college of engineering and technology, Pollachi, TamilNadu

09/2018 - 12/2022

CGPA:8.4

Courses

- ▣ Electronics and communication Engineering(ECE)

### Higher Secondary School

Adhiyaman Higher Secondary School, Uthangarai

06/2016 - 05/2018

Percentage :86.16

## RESEARCH PROJECTS

Innovative and creative project in Internet of things "SMART SENSIBLE MANHOLE VIGILANT SYSTEM" simulated and fabricated. This journal paper is published in VOLUME 16,ISSUE 5,2022 Journal of Xidian University.

In the domain Radio Frequency using HFSS "Design of Compact Low Profile Microstrip Patch Antenna for MIMO system applications" designed for 5G application.

## CERTIFICATES

Certificate of completion-Cloud fundamentals by TalentNext Mphasis

Certificate of completion-Devops by TalentNext Mphasis

Certificate of completion-java microservice by TalentNext Mphasis

Certificate of completion-Relational database by TalentNext Mphasis

Certificate of completion-RESTful Web Services by TalentNext Mphasis

Certificate of completion SQL by TalentNext Mphasis

Certificate of completion- C programming in Solo learn

Value Added Course in Custom Analog IC Design using Cadence EDA tool conducted by Dept of Electronics and Communication Engineering ASIC Centre of Excellence.

Value Added Course in Custom Digital IC Design using Cadence EDA tool conducted by Dept of Electronics and Communication Engineering ASIC Centre of Excellence.

## PERSONAL PROJECTS

Developed mAdhar application with features required for new user and also update. This is done Angular, Bootstrap, and HTML/CSS(Frontend),Java Programming (Spring Boot, Hibernate)backend and testing in Junit using MySQLdatabase with validation.

Developed Online Movie ticket booking application by Angular, Bootstrap, and HTML/CSS(Frontend),Java Programming(SpringBoot,Hibernate) backend and testing in Junit using MySQL database

## DECLARATION

I assure you that the information given above is true to the best of my knowledge.
